(Valley Region only)

AGE

In terms of absolute growth, all age groups in San Bernardino County are projected to increase at varying rates between 2018 and 2045, from 7% growth among young children ages 0-5 to 109% growth among seniors ages 65 and older. In comparison, the statewide population of children ages 0-5 is expected to decrease by 3% over this time, while the statewide senior population is projected to increase 99% over the same period.

In terms of relative growth, the proportion of the San Bernardino County population made up of residents ages 65 and older is projected to grow from 12% of the population in 2018 to 19% by 2045. Adults ages 25-44 are projected to increase slightly, from 26% to 27% of the overall population. The size of all other age groups is projected to shrink in varying degrees relative to the total population.

Projected Change in Age Group Proportions of the Total San Bernardino County Population, 2018 and 2045

RACE AND ETHNICITY

At 54% of the total San Bernardino County population, Latino residents, who may be of any race, are the largest race and ethnic group in the county. Latino residents are projected to increase to 64% of the total population by 2045. The remaining race or ethnic groups, including White, Black/African American, Asian/Pacific Islander, Native American, and Two or More Races are projected to remain the same or decrease.
